SUMMARY

I'm a data scientist looking to use data to solve real-world problems. Skilled in machine learning, data analysis, and building models to make sense of big data. I want to use my skills to help organizations make data-driven decisions.

EDUCATION

M.S. in Data Science	XYZ University 2022
B.S. in Computer Science	ABC University 2020

EXPERIENCE

Data Scientist Intern	XYZ Tech Company 2021
<ul style="list-style-type: none">Analyzed customer data to identify behavior patterns and trends.Built machine learning models to predict customer churn.Created data visualizations and dashboards using Tableau for internal teams.	
Data Analyst	ABC Analytics 2020
<ul style="list-style-type: none">Extracted, cleaned, and analyzed data using SQL and Python.Developed reports and visualizations to provide actionable insights for clients.Built a predictive model for sales forecasting using linear regression.	

PROJECTS

Customer Segmentation
<ul style="list-style-type: none">Applied K-Means clustering to segment customers based on purchasing behavior.
Sales Forecasting Model
<ul style="list-style-type: none">Built a linear regression model to predict future sales with 85% accuracy.
Sentiment Analysis on Social Media Data
<ul style="list-style-type: none">Used NLP techniques to analyze social media posts for sentiment.

TECHNICAL SKILLS

Languages: Python, R, SQL, Java, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, XGBoost, Matplotlib, Seaborn, Tableau, MySQL, PostgreSQL, MongoDB, Git, Jupyter, Docker, Hadoop, AWS, Google Cloud

CERTIFICATIONS

Data Science Specialization (Coursera)
Machine Learning by Andrew Ng (Coursera)
AWS Certified Machine Learning - Specialty
